You have the POWER to say YES!

Make our schools stronger ... Vote for the November 5 Bond Referendum, which will:

Upgrade school safety measures ... for the safety and security of students and staff. Secure schools help ensure a healthy, safe space for our children.

Renovate or replace aging facilities ... because some schools are experiencing maintenance and structural problems due to their advanced age. Children can't learn in unsafe, deteriorating schools. Classroom additions, a replacement building, and facility renovations will provide students and staff with safer, stronger schools.

Add classroom space ... because enrollment has increased by more than 3,000 students in the past 11 years. Adding classroom space will create a productive learning environment.

Upgrade technology infrastructure ... district-wide technology infrastructure improvements will help schools prepare our students for the opportunities of the 21st-century workforce.

On November 5, SAY YES to Our Children's Future
Vote for the Bond Referendum
